

POCKET BOX

- A SLEAK AND SIMPLE WAY TO SELL YOUR PRODUCTS

Pocket Box focuses on sustainable products. It can be locally produced, with recyclable material, small scale production, created to last or to be mended later, or make as little impact as possible when the product has served its purpose.

As a producer you sell in one of our modular stores. We have the components for your shop - you build it up after your interest and need to suit you and your products.

Pocket Box is simply a smarter choice
- for both consumer and producer!

Apply now to sell at Pocket Box!

HOW?

1.

To apply, you **fill in a questionnaire** about yourself and your products through a [link on our website](#). You choose whether to rent 1, 2, or 3 months and when you want to start renting.

2.

We contact you to let you know we have reviewed your application. If selected*, you get a **contract, key, rent invoice and a contact person** who will make planning your pop-up store clear and smooth.

3.

You **build your pop-up** store with the modular components that Pocket Box provides for you. We have clothing racks, boxes, surfaces and more. You can **modify** your store just as you want it!

4.

Pocket Box provides you with **sign displays** for pricing info, payment options and a blurb about you and your products. We also display your answers to **sustainability questions** from the application questionnaire. We think transparency is cool.

5.

Your pop-up store will be **open** the same hours as Långeds Garderob, which is in the same space as Pocket Box. You don't need to be there yourself at each opening opportunity, and you'll have a key to show people your shop if other hours suit you better. **You just do what you want!**

6.

You sell, and the customer pays directly to your Swish. **Smooth and easy!** After your rental period, you pack up your store and say thanks for now.

You are welcome to rent again, and again!

*The decision if you can rent is based on how many of our criterias you check; with that meaning - how sustainable, local and solid your products are.
